SUSTAINABLE SOLUTION A SUCCESS

By Ava

Urban Utilities is operating a water bottle refill station in Alexandria Park saving the need for people to buy single-use plastic bottles of water.

The van in Alexandria Park is one of many water bottle refill stations located around the Showgrounds.

"The response from the public has been extremely positive, and all Ekka visitors are welcome to utilise the water stations," Ms Lucille

Burkitt and Ms Laura Gray from Urban Utilities said.

Urban Utilities was established in July 2010 by merging the water assets of the Brisbane City Council with those from four other local government authorities. It now supplies drinking water, recycled water and sewerage services to more than 1.4 million people across five local government areas in South East Queensland.
