

Brisbane Urban Environmental Education Centre

Curriculum Activity Risk Assessment

Activity Details

CARA Creation Date: 24-Jan-2020			
Activity:	Other	Activity Name:	Year 5 - City Streets, City Beach
Guidelines:	https://education.qld.gov.au/curriculum/school-curriculum/CARA/activity-guidelines		
Activity Description:	Students consider the effects of flood on the South Brisbane area pre and post European settlement by: -Participating in an exploratory walk along South Bank. -Analysing a poem describing different periods in history along South Bank to investigate how environmental characteristics are influenced by humans in different times and places. -Following navigational instructions to explore the local area to gather information, creating a script and producing a video as an expert on their chosen site.		
Inherent Risk Level:	Medium		
Inherent Risk Level Description:	Some chance of an incident and injury requiring first aid		
Start Date:	Tuesday, 28 January, 2020	End Date:	Friday, 11 December, 2020
On School Grounds:	No	Is parental permission required for this activity?	Yes

Mandatory/Special Requirements

Provide information about mandatory/special requirements for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/[CARA activity guidelines](#) exist for each activity and ensure the minimum requirements are met.

Students instructed on safe crossing of the road at the start of the day and strictly supervised at all crossings.

Operational procedures for the use of public transport, accidents and illness while in transit. The safety and well being of the whole group is to be considered at all times.

Evacuation and lockdown procedures will be shared with all students, teachers and adults at the commencement of the program.

Risk Management Details

Supervision Requirements

Provide information about supervision for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/[CARA activity guidelines](#) exist for each activity and ensure the minimum supervision requirements are met.

Minimum 3 teachers required for a group of 30 students (2 BUEEC teachers + 1 visiting school teacher). Teacher Aides and adult helpers are welcome to provide additional supervision and support.

Brisbane Urban Environmental Education Centre

Curriculum Activity Risk Assessment

Qualification Requirements

Provide information about the leader/supervisor's relevant qualification and/or competence for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/[CARA activity guidelines](#) exist for each activity and ensure the minimum qualification requirements are met.

Registered teacher with minimum qualifications and experience as required by the nature of the activities.

All BUEEC staff hold current First Aid and CPR qualifications.

Equipment/Facility Requirements

Provide information about equipment/facilities for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/[CARA activity guidelines](#) exist for each activity and ensure the minimum equipment/facility requirements are met.

Students/teachers are advised prior to the excursion to bring sun safety equipment and bottled drinking water.

Schools are required to bring a first aid kit which meets the needs of that school in relation to the specific requirements of individual students and accompanying adults, as well as the variation to routine approval process of the school.

BUEEC staff will discuss equipment (e.g cameras, laptops, iPads etc) prior to use, outlining correct procedures and safety requirements.

Curriculum Activity Risk Assessment

Hazards and Control Measures

Provide information about the identified risks and planned control measures for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/[CARA activity guidelines](#) exist for each activity. Information on managing common hazards and risks in the school environment can be found at [Hazards and Risks](#).

One program activity takes place outside of a classroom. Students should bring along adequate sun protection and a hat for outdoor sequences. Students will be monitored by BUEEC staff for fatigue and establish rest, food and water stops are timetabled into excursion.

BUEEC staff will assess weather conditions before and during the activity.

Students instructed on safe crossing of the road at the start of the day and strictly supervised at all crossings.

BUEEC staff will not allow students to climb trees, constantly monitor surroundings for slip, trip and fall hazards, and ensure that everyone wears appropriate footwear at all times.

BUEEC staff carry a basic first aid kit suited to area in which excursion occurs.

The visiting school will provide class lists and advise BUEEC staff of medical information prior to or on the day of the excursion.

Teacher with medical condition to advise BUEEC staff to procedures in the event of an incident.

Students with open cuts and abrasions are to be removed from the activity and treated immediately. If bleeding cannot be controlled completely, the participant should not be allowed to return to the activity. All clothing, equipment and surfaces contaminated by blood should be treated as potentially infectious.

BUEEC staff will support teachers in implementing the school's behaviour management strategies and plans as required.

Students will be instructed on behaviour requirements, with adult supervision of group required at all times.

BUEEC staff will discuss safety procedures and rules at the commencement of the activity.

BUEEC staff will monitor students for safe movement around the activity area.

School requested to advise of any students with family law concerns.

Teacher supervision of student areas.

* Move students away from persons of concern.

* Monitor intentions and actions of any person approaching the group.

* Contact police if a problem situation is encountered.

Staff/Other Participants

Family Name	Given Name	Type	Other Participants Role
Brown	Lachlan	Staff Member	N/A
Davis	Melanie	Staff Member	N/A
Devaney	Mark	Staff Member	N/A
Jensen	Jennifer	Staff Member	N/A
Maher	Donna	Staff Member	N/A

Curriculum Activity Risk Assessment

Planning Considerations

Which students will be involved?

- Consider the number of students, size of student groups and students' capabilities e.g. age, experience, competence, fitness, maturity.
- Consider any individual student needs e.g. personalised learning, support provisions (including behaviour support plans), health management (including health plans and prescribed medication requirements).

Where will the students be?

- Consider the location of the activity e.g. remote/easily accessible, public /private, school/classroom/workshop/other.
- Is the number of students appropriate for the available space?
- If outdoors – sunsafe strategies are implemented; weather and environmental conditions are assessed before and during activity (e.g. temperature, storms, water currents, tides); and strategies to reduce the likelihood of viruses, allergies and skin infections caused by insects (e.g. ticks, mosquitoes, spiders) and other animals are applied.
- The site is checked for hazards (e.g. poisonous plants, dangerous animals, uneven terrain, barbed wire,) and necessary controls implemented.
- Activities are appropriately situated in relation to buildings, pedestrians, members of the public, vehicles and other activities e.g. designated areas for activity, spectators and vehicles are established.

What will the students be doing?

- Consider the nature and duration of the activity i.e. need for drinking water, food, rest, appropriate clothing, warm-up and warm-down.
- Instruction in rules and pre-requisite skills is provided.
- Student skills are developed in a progressive and sequential manner.
- First aid and emergency medical treatment provisions are appropriate for the type of activity and location e.g. first aid kit, first aid trained personnel, Ventolin®, Epipen®, and students' personal prescribed medications as required in health plans are available.
- Emergency response strategies are in place e.g. communication plans (e.g. mobile phone, walkie talkie), safety induction, evacuation plans.
- Hair, clothing, footwear and jewellery are worn in a manner that is appropriate and safe for the activity.
- Personal items, e.g. drink bottles, towels and mouthguards, will not be shared between students.

What will the students be using?

- Instruction in safety procedures and safe handling of equipment is provided.
- Equipment is suitable for the activity, properly maintained, appropriately used and complies with the relevant safety standard.
- [Relevant department procedures and guidelines](#) are adhered to for the use of equipment and work processes.

Who will be leading the activity?

- A registered teacher has overall responsibility for the activity.
- Sufficient adult supervision is in place to manage the activity safely (including in emergency situations).
- The activity leader has the competence (knowledge and skills) to plan, induct, instruct and manage the activity safely for students and others.
- There are sufficient adults present with current First Aid qualifications (including CPR) or ready access to qualified first aid personnel.
- Blue Card requirements are adhered to for leaders/volunteers.

I have incorporated the above factors when planning my risk management strategies for this activity.

Additional activity-specific requirements for students with specialised learning needs are provided in the Other Details box below.
