# **Curriculum Activity Risk Assessment**

## **Activity Details**

|                                  |  |  | CARA Creation Date: 29-Jan-2020 |  |
|----------------------------------|--|--|---------------------------------|--|
| Activity:                        | Other  | Activity Name:                                     | Year 4 - What A Load of Rubbish |  |
| Guidelines:                      | https://education.qld.gov.au/curriculum/school-curriculum/CARA/activity-guidelines   |  |                                 |  |
| Activity Description:            | Students complete a waste audit of the school prior to the day to ascertain the main problem with rubbish.  On the day, they will:  • Estimate how long everyday items take to break down in landfill in a timeline activity.  • Take part in a waste sort where we reduce the amount of waste going to landfill and learn more about plastics.  • Produce a script and digital presentation to persuade the school community to change their behaviours in positive ways. |  |                                 |  |
| Inherent Risk Level:             | Low  |  |                                 |  |
| Inherent Risk Level Description: | Little chance of incident or serious injury  |  |                                 |  |
| Start Date:                      | Tuesday, 28 January, 2020  | End Date:  | Friday, 11 December, 2020       |  |
| On School Grounds:               | Yes  | Is parental permission required for this activity? | No                              |  |

## **Mandatory/Special Requirements**

Provide information about mandatory/special requirements for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/<u>CARA activity guidelines</u> exist for each activity and ensure the minimum requirements are met.

BUEEC staff will ensure that the outdoor area where activities are to be undertaken has been checked for hazards. Evacuation and lockdown procedures will be shared with all students, teachers and adults at the commencement of the program.

# **Risk Management Details**

## **Supervision Requirements**

Provide information about supervision for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/<u>CARA activity guidelines</u> exist for each activity and ensure the minimum supervision requirements are met.

Minimum 2 teachers required for a group of 30 students (1 BUEEC teacher + 1 visiting school teacher). Teacher Aides and adult helpers are welcome to provide additional supervision and support.

## **Curriculum Activity Risk Assessment**

## **Qualification Requirements**

Provide information about the leader/supervisor's relevant qualification and/or competence for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/<u>CARA activity guidelines</u> exist for each activity and ensure the minimum qualification requirements are met.

Registered teacher with minimum qualifications and experience as required by the nature of the activity. All BUEEC staff hold current First Aid and CPR qualifications.

## **Equipment/Facility Requirements**

Provide information about equipment/facilities for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/<u>CARA activity guidelines</u> exist for each activity and ensure the minimum equipment/facility requirements are met.

Students/teachers are advised prior to the excursion to bring sun safety equipment and bottled drinking water.

Schools are required to bring a first aid kit which meets the needs of that school in relation to the specific requirements of individual students and accompanying adults, as well as the variation to routine approval process of the school.

## **Curriculum Activity Risk Assessment**

### **Hazards and Control Measures**

Provide information about the identified risks and planned control measures for each activity that is to occur in the Other Details box below.

Check if relevant Codes of Practice/<u>CARA activity guidelines</u> exist for each activity. Information on managing common hazards and risks in the school environment can be found at <u>Hazards and Risks</u>.

The majority of activities take place in the classroom.

Students should bring along adequate sun protection and a hat for outdoor sequences.

Students will be monitored by BUEEC staff for fatigue and establish rest stops where appropriate. Students will be encouraged to seek shade where possible.

BUEEC staff will assess weather conditions before and during the activity.

BUEEC staff will not allow students to climb trees, constantly monitor surroundings for slip, trip and fall hazards, and ensure that everyone wears appropriate footwear at all times.

Teacher with medical condition to advise BUEEC staff to procedures in the event of an incident.

Students with open cuts and abrasions are to be removed from the activity and treated immediately. If bleeding cannot be controlled completely, the participant should not be allowed to return to the activity. All clothing, equipment and surfaces contaminated by blood should be treated as potentially infectious.

BUEEC staff will discuss safety procedures and rules at the commencement of the activity.

BUEEC staff will discuss equipment prior to use, outlining correct procedures and safety requirements.

BUEEC staff will monitor students for safe movement around the activity area.

School requested to advise of any students with family law concerns.

Teacher supervision of student areas:

- \* Move students away from persons of concern.
- \* Monitor intentions and actions of any person approaching the group.
- \* Contact police if a problem situation is encountered.

| Staff/Other Participants |            |              |                         |  |
|--------------------------|------------|--------------|-------------------------|--|
| Family Name              | Given Name | Туре         | Other Participants Role |  |
| Brown                    | Lachlan    | Staff Member | N/A                     |  |
| Davis                    | Melanie    | Staff Member | N/A                     |  |
| Devaney                  | Mark       | Staff Member | N/A                     |  |
| Jensen                   | Jennifer   | Staff Member | N/A                     |  |
| Maher                    | Donna      | Staff Member | N/A                     |  |

# **Curriculum Activity Risk Assessment**

## **Planning Considerations**

#### Which students will be involved?

- Consider the number of students, size of student groups and students' capabilities e.g. age, experience, competence, fitness, maturity.
- Consider any individual student needs e.g. personalised learning, support provisions (including behaviour support plans), health management (including health plans and prescribed medication requirements).

#### Where will the students be?

- Consider the location of the activity e.g. remote/easily accessible, public /private, school/classroom/workshop/other.
- Is the number of students appropriate for the available space?
- If outdoors sunsafe strategies are implemented; weather and environmental conditions are assessed before and during activity (e.g. temperature, storms, water currents, tides); and strategies to reduce the likelihood of viruses, allergies and skin infections caused by insects (e.g. ticks, mosquitoes, spiders) and other animals are applied.
- The site is checked for hazards (e.g. poisonous plants, dangerous animals, uneven terrain, barbed wire,) and necessary controls implemented.
- Activities are appropriately situated in relation to buildings, pedestrians, members of the public, vehicles and other
  activities e.g. designated areas for activity, spectators and vehicles are established.

## What will the students be doing?

- Consider the nature and duration of the activity i.e. need for drinking water, food, rest, appropriate clothing, warm-up and warm-down.
- Instruction in rules and pre-requisite skills is provided.
- Student skills are developed in a progressive and sequential manner.
- First aid and emergency medical treatment provisions are appropriate for the type of activity and location e.g. first aid kit, first aid trained personnel, Ventolin®, Epipen®, and students' personal prescribed medications as required in health plans are available.
- Emergency response strategies are in place e.g. communication plans (e.g. mobile phone, walkie talkie), safety induction, evacuation plans.
- Hair, clothing, footwear and jewellery are worn in a manner that is appropriate and safe for the activity.
- Personal items, e.g. drink bottles, towels and mouthquards, will not be shared between students.

#### What will the students be using?

- Instruction in safety procedures and safe handling of equipment is provided.
- Equipment is suitable for the activity, properly maintained, appropriately used and complies with the relevant safety standard.
- Relevant department procedures and guidelines are adhered to for the use of equipment and work processes.

### Who will be leading the activity?

- A registered teacher has overall responsibility for the activity.
- Sufficient adult supervision is in place to manage the activity safely (including in emergency situations).
- The activity leader has the competence (knowledge and skills) to plan, induct, instruct and manage the activity safely for students and others.
- There are sufficient adults present with current First Aid qualifications (including CPR) or ready access to qualified first aid personnel.
- Blue Card requirements are adhered to for leaders/volunteers.

| $\overline{\mathbf{V}}$ | I have incorporated the above factors when planning my risk management strategies for this activity.                                |
|-------------------------|---|
|                         | Additional activity-specific requirements for students with specialised learning needs are provided in the Other Details box below. |
|                         |   |
